

Alicia Guidry

A Turn-Key Web Design Agency

metamorfasis.design@gmail.com

Summary

SOLVING BIG PROBLEMS. FOR SMALL BUSINESSES.

Everyday we take a 'mom-and-pop' business in America and enable them to have a modern, professional presence online. And, we do it cheaply, quickly and with integrity. We cut through all the confusion generally involved in developing a website.

We develop and design WordPress themes, we provide optimized hosting on our Litespeed servers and include daily maintenance in every package. In a nutshell, we provide a one-stop-shop for getting a killer website up in 5 days or less with little to no fuss.

Experience

Owner

November 2016 - Present

Our intention is to take all that painful & grueling back-and-forth 'out' of having a custom website built. Just pick one of our unique themes and we'll add your content and media, logo, custom fonts, personal colors and basically, make it yours. We take care of all the technical stuff from A-Z so you can do what you do. We include optimized WordPress hosting and daily managed maintenance and even toss in a free domain name. Time to go to the beach.

WordPress Designer

January 2011 - November 2016 (5 years 11 months)

Metamorfasis is an organic design process developing custom WordPress sites. Very simply, you tell me all about what you do and I design it, edit it, curate the images, collect unique media, set your server up and migrate it over. I take care of all the technical stuff so you can concentrate on building your business.

Publisher

2010 - 2011 (2 years)

Alternative newspaper for the Shreveport & Bossier City area featuring over 400+ monthly events.
